

K  **HBK**
NOT SUITABLE FOR V2 / Mono6
Postmount 140 > Postmount 160mm

L  **HBL**
NOT SUITABLE FOR Mono6
Postmount 160 > Postmount 180mm
Postmount 180 > Postmount 200mm

M  **HBM**
Postmount 160 > Postmount 200mm
Postmount 180 > Postmount 220mm

P  **HBP**
NOT SUITABLE FOR Mono6
Postmount 200 > Postmount 220mm

Q  **HBMQ**
NOT SUITABLE FOR V2
Postmount 203 > Postmount 220mm

C  **HBMC**
Postmount 160 > Postmount 203mm

H  **HBMH**
Postmount 160 > Postmount 183mm
Postmount 180 > Postmount 203mm

A  **HBMA**
Fits MonoMini and X2 calipers ONLY
IS Front > Postmount 160mm
IS Rear > Postmount 140mm

F  **HBMF**
NOT SUITABLE FOR Mono6
IS Front > Postmount 180mm
IS Rear > Postmount 160mm

N  **HBMN**
IS Front > Postmount 200mm
IS Rear > Postmount 180mm

R  **HBMR**
IS Front > Postmount 220mm
IS Rear > Postmount 200mm

B  **HBMB**
IS Front > Postmount 203mm
IS Rear > Postmount 183mm

D  **HBMD**
Boxer > Postmount 203mm
Pre 2009 forks only

E  **HBME**
FOX40 > Postmount 203mm
Pre 2014 forks only

G  **HBMG**
IS Rear > Postmount 203mm

J  **HBMJ**
IS Front > Postmount 183mm

NOTE: 180, 183, 185, 200, 203 dia.

Over the years there has been some confusion over this "middle" sized disc. Although we will continue to manufacture 183mm discs and their corresponding H and J mounts, we have decided to standardise on the more common 180mm disc size.

NOTE: Postmount tab position varies depending on the manufacturers intended minimum rotor size. Please contact the fork or frame manufacturer to identify the Postmount standard being used.

Future Proofing: For future proof assemblies preferably use the following disc sizes: 140 / 160 / 180 / 200 / 220

-  Recommended for modern braking systems
-  Less common applications
